COMPETENCY BASED CURRICULUM

WELDER

(Duration: One Year)

CRAFTSMEN TRAINING SCHEME (CTS) NSQF LEVEL- 4

SECTOR – CAPITAL GOODS AND MANUFACTURING

WELDER

(Engineering Trade)

(Revised in 2017)

Version: 1.1

CRAFTSMEN TRAINING SCHEME (CTS)

NSQF LEVEL - 4

Skill India कौशल भारत-कुशल भारत

Developed By

Ministry of Skill Development and Entrepreneurship

Directorate General of Training

CENTRAL STAFF TRAINING AND RESEARCH INSTITUTE

EN-81, Sector-V, Salt Lake City, Kolkata – 700 091

The DGT sincerely acknowledges contributions of the Industries, State Directorates, Trade Experts, Domain Experts and all others who contributed in revising the curriculum. Special acknowledgement is extended by DGT to the following expert members who had contributed immensely in this curriculum.

	List of Expert members contributed/ participated for finalizing the course curriculum of Welder trade held on 12.01.17 at CSTARI, Kolkata				
S No.	Name & Designation Shri/Mr./Ms.	Organization	Remarks		
1.	DEEPANKAR MALLICK, DDG (Trg.)	DGT, MSDE, New Delhi	Chairman		
2.	H. V. SAMVATSAR, Director	CSTARI, Kolkata	Secretary (Trade Committee)		
3.	NIRMALYA NATH, Asst. Director of Trg.	CSTARI, Kolkata	Member cum Co-coordinator		
4.	RAJENDRA PRASAD, Director	DTE, Uttar Pradesh	Member		
5.	R. N. BANDYOPADHAYA, OSD	Paschim Banga Society For Skill Development, Kolkata	Member		
6.	SUMANTA MODAK, General Manager (Works)	EVEREADY Industries Pvt. Ltd. (Representative of <i>CII</i>)	Member		
7.	S. D. SATISH CHANDRA, Manager (HR), Trg.	HAL – Koraput Division, Koraput, Odisha	Member		
8.	SUMANTA CHATTERJEE, Addl. General Manager	BHEL, Power Sector ER	Member		
9.	P. C. BHANDARI, Technical Advisor	J K Cement Ltd., Kanpur	Member		
10.	SANJIT BHOWMICK, Asst. General Manager	Hindalco Industries Ltd., Belur Math, Howrah	Member		
11.	DEBASHIS BHATTACHARYYA, JWM,/FTI	Rifle Factory, Ishapore, Ministry of Defence, Govt. India, WB	Member		
12.	SATYABADI SATAPATHY, Training Officer	HAL – Koraput Division, Koraput, Odisha	Member		
13.	PRABHAT SAMIR PAL, Jr. Manager	GRSE Ltd., Kolkata	Member		
14.	JOYDEEP PAL MAJUMDER Asst. Work Manager	Rifle Factory, Ishapore, Ministry of Defence, Govt. India, WB	Member		
15.	BHABANI PROSAD MONDAL CM/FTI	Rifle Factory, Ishapore, Ministry of Defence, Govt. India, WB	Member		
16.	SUNIRMAL BASU, Asst. Inspecting Officer	Railway Workshop, Kanchrapara	Member		

17.	K. L. KULI, Joint Director of Trg.	CSTARI, Kolkata	Member
18.	M. THAMIZHARASAN,	CSTARI, Kolkata	Member
	Joint Director of Trg.		
19.	SANJAY KUMAR, Joint Director of	CSTARI, Kolkata	Member
	Trg.		
20.	L. K. MUKHERJEE, Dy. Director of	CSTARI, Kolkata	Member
	Trg.		
21.	U. K. MALLICK, Dy. Director	DTE&T, Odisha	Member
22.	N. R. PATTANAIK, Principal	Govt. ITI Balasore, Odisha	Member
23.	DEEPAK KUMAR, SSE/Drg./C&W	Railway Workshop,	Member
		Kanchrapara	
24.	D. W. PATNE, Secretary	Association of Non Govt. ITI,	Member
		Maharastra	
25.	VIVEK CHAUDHARI, Principal	Ujjwal ITI Nashirabad, Dist-	Member
	1 20	Jalgoan, Maharastra	
26.	Fr. JOSE PADAMATTAM, Principal	Don Bosco Technical	Member
	1000	Institute, Park Circus	
27.	SWAMI GUNINDRANANDA,	R. K. Mission Shilpayatan	Member
	Superintendent	Belurmath, Howrah	
28.	TAPAS SENGUPTA, Instructor	ITI Howrah Homes	Member
29.	DEBIPROSHAD SARKAR, Instructor	ITI Howrah Homes	Member
30.	G. B. KOLAPATE, Instructor	Govt. ITI Andhari, Mumbai,	Member
	F1-13	Maharastra	
31.	H. B. KOSHTI, Craft Instructor	Govt. ITI Byculla, Mumbai -	Member
	Barrier III	400011	
32.	N. B. NARKAR, Craft Instructor	ITI Ambernath, Thane,	Member
		Maharastra	<i>□</i> 6.
33.	PARTHA SARKAR, Jr.	Railway Workshop,	Member
	Engineer/Drawing (Mech.)	Kanchrapara	
34.	S. K. BHATTACHARYA,	STC/KPA, Eastern Railways,	Member
	Instructor	Kanchrapara	
35.	BIKASH CHAUDHURI, Instructor	Ramakrishna Mission	Member
		Shilpayatan, Belur, Howah	
36.	SACHIN M. LAMSE, Instructor	ITI Aundh, Pune, Maharastra	Member
37.	SOMNATH B. SAPKAL, Instructor	ITI Anudh, Pune, Maharastra	Member
38.	K. K. PANIGRAHI, Instructor	Gun Shell Factory, Cossipore	Member
39.	TARAKNATH GARAI, Instructor	ITI Howrah Homes	Member
40.	SUDHANGSHU MUKHERJEE,	Eastern Railway,	Member
	Sr. Tech./Dy. CEE/KPN	Kanchrapara	
41.	S. N. TAMBATKAR,	Govt. ITI, Adheri, Mumbai	Member
	Craft Instructor

	List of Trade Tools & Equipment	
	List of Tools & Equipment for Employability Skill	
11.	Annexure II - Format for Internal Assessment	45

During the one year duration a candidate is trained on subjects Professional Skill, Professional Knowledge, Engineering Drawing, Workshop Science & Calculation and Employability Skills. In addition to this a candidate is entrusted to make/do project work and Extra Curricular Activities to build up confidence. The broad components covered under Professional Skill subject are as below:

The practical skills are imparted in simple to complex manner & simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task. The safety aspects covers components like OSH&E, PPE, Fire extinguisher, First Aid and in addition 5S being taught. The practical part starts with edge preparation by hacksawing, filing and fitting followed by Oxy Acetylene Welding & Brazing, Oxy Acetylene Cutting, Shielded Metal Arc Welding, Gas Metal Arc Welding, Gas Tungsten Arc Welding and Spot Welding, Plasma Cutting and Arc Gouging. These processes are widely used in Industries.

During the practice on Welding / Brazing process, the trainees will learn to read the job drawing, select the required base metal and filler metals, cut the metals by appropriate process, carry out edge preparation, setup the plant and do welding/Brazing on M.S, SS, Aluminium and Copper in different positions. On completion of each job the trainees will also evaluate their jobs by visual inspection, and identify the defects for further correction/improvement. They learn to adapt precautionary measures such as preheating; maintaining inter-pass temperature and post weld heat treatment for Welding Alloy steel, Cast Iron etc. The Work Shop calculation taught will help them to plan and cut the required jobs economically without wasting the material and also used in estimating the Electrodes, filler metals etc. The Workshop Science taught will help them to understand the materials and properties, effect of alloying elements etc. Engineering Drawing taught will be applied while reading the job drawings and will be useful in understanding the location, type and size of weld to be carried out.

The professional knowledge taught will be useful in understanding the principles of Welding, Brazing and Cutting process, use of jigs and Fixtures, distortion and methods of control, selection of consumables and to take precautionary measures for storage and handling and apply the same for executing the Cutting, Welding and Brazing.

The knowledge and practice imparted on Destructive and Non-destructive testing will be use in understanding the standard quality of welds and to carry out shop floor Inspection and test in laboratories.

One project need to be completed by the candidates in a group. In addition to above components the core skills components viz., Workshop calculation & science, Engineering drawing, employability skills are also covered. These core skills are essential skills which are necessary to perform the job in any given situation.

2.1 GENERAL

Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers range of vocational training courses catering to the need of different sectors of Labour market. The vocational training programmes are running under aegis of National Council of Vocational Training (NCVT). Craftsman Training Scheme (CTS) and Apprenticeship Training Scheme (ATS) are two pioneer programmes under NCVT for propagating vocational training.

Welder trade under CTS is one of the most popular courses running on pan India through ITIs. The course is of one year duration. It mainly consists of Domain area and Core area. The Domain area (Trade Theory & Practical) impart professional skills and knowledge, while Core area (Workshop Calculation & science, Engineering Drawing and Employability Skills) impart requisite core skill, knowledge and life skills. After passing out the training program, the trainee is awarded National Trade Certificate (NTC) by NCVT which is recognized worldwide.

Candidates need broadly to demonstrate that they are able to:

- Read & interpret technical parameters/documentation, plan work, identify necessary materials and tools:
- Perform task with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional knowledge, core skills & employability skills while performing the job.
- Check the job/assembly as per drawing for functioning, identify and rectify errors in job/assembly.
- Document the technical parameters related to the task undertaken.

2.2 CAREER PROGRESSION PATHWAYS

- Can join Apprenticeship programme in different types of industries leading to National Apprenticeship certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming instructor in ITIs.

2.3 COURSE STRUCTURE:

Table below depicts the distribution of training hours across various course elements during a period of one year: -

S No.	Course Element	Notional Training Hours
1	Professional Skill (Trade Practical)	1075
2	Professional Knowledge (Trade Theory)	258
3	Workshop Calculation & Science	86
4	Engineering Drawing	129
5	Employability Skills	110
6	Library & Extracurricular activities	62
7	Project work	80
8	Revision & Examination	280
	Total	2080

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course and at the end of the training programme as notified by Govt of India from time to time. The Employability skills will be tested in first year itself.

- a) The **Internal assessment** during the period of training will be done by **Formative assessment method** by testing for assessment criteria listed against learning outcomes. The training institute have to maintain individual *trainee portfolio* as detailed in assessment guideline. The marks of internal assessment will be as per the template (Annexure II).
- b) The final assessment will be in the form of summative assessment method. The All India Trade Test for awarding NTC will be conducted by NCVT as per guideline of Govt. of India. The pattern and marking structure is being notified by govt. of India from time to time. The learning outcome and assessment criteria will be basis for setting question papers for final assessment. The examiner during final examination will also check individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Practical is 60% & minimum pass percent for Theory subjects is 33%.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking assessment. Due consideration should be given while assessing for team work, avoidance/reduction of scrap/wastage and disposal of scarp/wastage as per procedure, behavioral attitude, sensitivity to environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work

Evidences of internal assessments are to be preserved until forthcoming examination for audit and verification by examination body. The following marking pattern to be adopted while assessing:

100mm 1 207				
Performance Level	Evidence			
(a) Weightage in the range of 60 -75% to be allotted during assessment				
For performance in this grade, the candidate with occasional guidance and showing due regard for safety procedures and practices, has produced work which demonstrates attainment of an acceptable standard of craftsmanship.	 Demonstration of good skill in the use of hand tools, machine tools and workshop equipment 60-70% accuracy achieved while undertaking different work with those demanded by the component/job/set standards. A fairly good level of neatness and consistency in the finish Occasional support in completing the project/job. 			
(b)Weightage in the range of above75% - 90% to be allotted during assessment				
For this grade, the candidate, with little guidance and showing due regard for safety procedures and practices, has	 Good skill levels in the use of hand tools, machine tools and workshop equipment 70-80% accuracy achieved while undertaking 			

produced work which demonstrates attainment of a reasonable standard of craftsmanship.

- different work with those demanded by the component/job/set standards.
- A good level of neatness and consistency in the finish
- Little support in completing the project/job

(c) Weightage in the range of above 90% to be allotted during assessment

For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.

- High skill levels in the use of hand tools, machine tools and workshop equipment
- Above 80% accuracy achieved while undertaking different work with those demanded by the component/job/set standards.
- A high level of neatness and consistency in the finish.
- Minimal or no support in completing the project.

Skill India कौशल भारत-कुशल भारत

Brief description of Job roles:

Welder while doing gas welding; fuses metal parts together using welding rod and oxygen acetylene flame. Examines parts to be welded, cleans portion to be joined, holds them together by some suitable device and if necessary makes narrow groove to direct flow of molten metal to strengthen joint. Selects correct type and size of welding rod, nozzle etc. and tests welding, torch. Wears dark glasses and other protective devices while welding. Releases and regulates valves of oxygen and acetylene cylinders to control their flow into torch. Ignites torch and regulates flame gradually. Guides flame along joint and heat it to melting point, simultaneously melting welding rod and spreading molten metal along joint shape, size etc. and rectifies defects if any.

Welder while doing Arc welding; fuses metals using arc-welding power source and electrodes. Examines parts to be welded, cleans them and sets joints together with clamps or any other suitable device. Starts welding power source and regulates current according to material and thickness of welding. Connect one lead to part to be welded, selects required type of electrode and clamps other lead to electrode holder. May join parts first at various points for holding at specified angles, shape, form and dimension by tack welding. Establish arc between electrode and joint and maintain it throughout the length of the joint.

Welder, operates; spot welding machine to joint metal sheet by resistance welding method. Feeds metal sheets to be welded according to type of machine and welds them by pressing paddle, or by automatic arrangements.

Welder while doing gas cutting; cuts metal to require shape and size by gas flame either manually or by machine. Examines material to be cut and marks it according to instruction of specification. Makes necessary connections and fits required size of nozzle in welding torch. Releases and regulates flow of gas in nozzle, ignites and adjusts flame. Guides flame by hand or machine along cutting line at required speed and cuts metal to required size.

Welder while doing gas brazing; joints metal parts by heating using flux and filler rods. Cleans and fastens parts to be joined face to face by wire brush. Apply flux on the joint and heats by torch to melt filler rods into joint. Allows it to cool down. Clean and examines the joint.

Welder while doing Gas Tungsten Arc welding also known as Tungsten Inert Gas (TIG) welding; reads fabrication drawing, examines parts to be welded, cleans them and sets joints with clamps or any other suitable device. Selects suitable tungsten electrode, grinds the edges and fit in to the GTA welding torch. Selects gas nozzle and fit in to the GTA welding torch. Selects suitable filler rods and cleans them. Connects work piece with earth cable, Connects the machine with Inert gas Cylinder, regulator and flow meter. Starts the Constant current GTA welding machine, sets suitable welding current & polarity and inert gas flow. Establish arc

through across a column of highly ionized inert gas between work piece and Tungsten electrode. Melts the metal and deposit weld beads on metal surfaces by passing the suitable filler rod in to the weld puddle. Joins metal pieces such as Steel, Stainless steel and Aluminiun metals.

Welder while doing Gas Metal Arc welding also known as MIG/MAG Welding; reads fabrication drawing, examines parts to be welded, cleans them and sets joints with clamps or any other suitable device. Connects work piece with earth cable. Connects the machine with suitable gas Cylinder, regulator and flow meter. Connects pre-heater when CO2 is used as shielding gas. Selects suitable wire electrode, feed it to welding GMA Welding torch through wire feeder. Selects contact tip gas nozzle and fit in to the GMA welding torch. Preheats joints as required. Starts the Constant Voltage GMA welding machine, sets suitable welding voltage & wire feed speed and shielding gas flow, produces arc between work piece and continuously fed wire electrode. Melts the metal and deposit weld beads on the surface of metals or joins metal pieces such as Steel, and Stainless steel metals.

Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

NSQF level for Welder trade under CTS: Level 4

As per notification issued by Govt. of India dated- 27.12.2013 on National Skill Qualification Framework total 10 (Ten) Levels are defined.

Each level of the NSQF is associated with a set of descriptors made up of five outcome statements, which describe in general terms, the minimum knowledge, skills and attributes that a learner needs to acquire in order to be certified for that level.

Each level of the NSQF is described by a statement of learning outcomes in five domains, known as level descriptors. These five domains are:

- a. Process
- b. professional knowledge
- c. professional skill
- d. Core skill and
- e. Responsibility

The Broad Learning outcome of **Welder** trade under CTS mostly matches with the Level descriptor at Level- 4.

The NSQF level-4 descriptor is given below:

Level	Process Required	Professional Knowledge	Professional Skill	Core Skill	Responsibility
Level 4	Work in familiar, predictable, routine, situation of clear choice	Factual knowledge of field of knowledge or study	Recall and demonstrate practical skill, routine and repetitive in narrow range of application, using appropriate rule and tool, using quality concepts	Language to communicate written or oral, with required clarity, skill to basic Arithmetic and algebraic principles, basic understanding of social political and natural environment	Responsibility for own work and learning.

5. GENERAL INFORMATION

Name of the Trade	Welder		
NCO - 2015	7212.0100, 7212.0200, 7212.0700,7212.0400, 7212.0500,		
	7212.0105, 7212.0303		
NSQF Level	Level – 4		
Duration of Craftsmen	One year

6. LEARNING/ ASSESSABLE OUTCOME

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

6.1. GENERIC LEARNING OUTCOME

- 1. Recognize & comply safe working practices, environment regulation and housekeeping.
- Understand and explain different mathematical calculation & science in the field of study including basic electrical. [Different mathematical calculation & science -Work, Power & Energy, Algebra, Geometry & Mensuration, Trigonometry, Heat & Temperature, elasticity]
- 3. Interpret specifications, different engineering drawing and apply for different application in the field of work. [Different engineering drawing-Geometrical construction, Dimensioning, Layout, Method of representation, Symbol, Different Projections, Assembly drawing, Sectional views, Estimation of material]
- 4. Select and measure dimension of components and record data.
- 5. Explain the concept in productivity, quality tools, and labour welfare legislation and apply such in day to day work to improve productivity & quality.
- 6. Explain energy conservation, global warming and pollution and contribute in day to day work by optimally using available resources.
- 7. Explain personnel finance, entrepreneurship and manage/organize related task in day to day work for personal & societal growth.
- 8. Plan and execute the work related to the occupation.

6.2 SPECIFIC LEARNING OUTCOME

- 9. Set the gas welding plant and join MS sheet in different position. [Different position: 1F, 2F, 3F, 1G, 2G, 3G.]
- 10. Set the SMAW machine and perform different type of joints on MS in different position observing standard procedure. [different types of joints- Fillet (T-joint, lap & Corner), Butt (Square & V); different position 1F, 2F, 3F,4F, 1G, 2G, 3G, 4G]
- 11. Set the oxy- acetylene cutting plant and perform different cutting operations on MS plate. [Different cutting operation Straight, Bevel, circular]
- 12. Perform welding in different types of MS pipe joints by Gas welding (OAW). [Different types of MS pipe joints Butt, Elbow, T-joint, angle (45°) joint, flange joint]

- 13. Set the SMAW machine and perform welding in different types of MS pipe joints by SMAW. [Different types of MS pipe joints Butt, Elbow, T-joint, angle (45°) joint, flange joint]
- 14. Choose appropriate welding process and perform joining of different types of metals and check its correctness. [appropriate welding process OAW, SMAW; Different metal SS, CI, Brass, Aluminium]
- 15. Demonstrate arc gouging operation to rectify the weld joints.
- 16. Test welded joints by different methods of testing. [different methods of testing- Dye penetration test, Magnetic particle test, Nick break test, Free band test, Fillet fracture test]
- 17. Set GMAW machine and perform welding in different types of joints on MS sheet/plate by GMAW in various positions by dip mode of metal transfer. [different types of joints- Fillet (T-joint, lap, Corner), Butt (Square & V); various positions- 1F, 2F, 3F,4F, 1G, 2G, 3G]
- 18. Set the GTAW machine and perform welding by GTAW in different types of joints on different metals in different position and check correctness of the weld. [different types of joints- Fillet (T-joint, lap, Corner), Butt (Square & V); different metals-Aluminium, Stainless Steel; different position- 1F & 1G]
- 19. Perform Aluminium & MS pipe joint by GTAW in flat position.
- 20. Set the Plasma Arc cutting machine and cut ferrous & non-ferrous metals.
- 21. Set the resistance spot welding machine and join MS & SS sheet.
- 22. Perform joining of different similar and dissimilar metals by brazing operation as per standard procedure. [different similar and dissimilar metals- Copper, MS, SS]
- 23. Repair Cast Iron machine parts by selecting appropriate welding process. [Appropriate welding process- OAW, SMAW]
- 24. Hard facing of alloy steel components/ MS rod by using hard facing electrode.

7. LEARNING OUTCOME WITH ASSESSMENT CRITERIA

GENERIC LEARNING OUTCOME			
LEARNING OUTCOME	ASSESSMENT CRITERIA		
Recognize & comply safe working practices, environment regulation and	1.1 Follow and maintain procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements.		
housekeeping.	1.2 Recognize and report all unsafe situations according to site policy.		
	1.3 Identify and take necessary precautions on fire and safety hazards and report according to site policy and procedures.		
	1.4 Identify, handle and store / dispose off dangerous/unsalvageable goods and substances according to site policy and procedures following safety regulations and requirements.		
	1.5 Identify and observe site policies and procedures in regard to illness or accident.		
	1.6 Identify safety alarms accurately.		
	1.7 Report supervisor/ Competent of authority in the event of accident or sickness of any staff and record accident details correctly according to site accident/injury procedures.		
SK	1.8 Identify and observe site evacuation procedures according to site policy.		
	1.9 Identify Personal Productive Equipment (PPE) and use the same as per related working environment.		
कोशल	1.10 Identify basic first aid and use them under different circumstances.		
V/JUNE 25-10	1.11 Identify different fire extinguisher and use the same as per requirement.		
	1.12 Identify environmental pollution & contribute to avoidance of same.		
	1.13 Take opportunities to use energy and materials in an environmentally friendly manner		
	1.14 Avoid waste and dispose waste as per procedure		
	1.15 Recognize different components of 5S and apply the same in the working environment.		
2. Understand and explain different mathematical calculation & science in the	2.1 Explain concept of basic science related to the field such as Material science, Mass, weight, density, heat & temperature, heat treatment.		

field of study including basic	2.2 Measure dimensions as per drawing
electrical. [Different	2.3 Use scale/ tapes to measure for fitting to specification.

views, Estimation of material]	
4. Select and measure	4.1 Select appropriate measuring scale/tape/gauges.
dimension of components	4.2 Measure dimension of the components/assembly &
and record data.	compare with given drawing/measurement.
5. Explain the concept in	5.1 Explain the concept of productivity and quality tools
productivity, quality tools,	and apply during execution of job.
and labour welfare legislation	5.2 Understand the basic concept of labour welfare
and apply such in day to day	legislation and adhere to responsibilities and remain
work to improve productivity	sensitive towards such laws.
& quality.	5.3 Knows benefits guaranteed under various acts
6. Explain energy	6.1 Explain the concept of energy conservation, global
conservation, global warming	warming, pollution and utilize the available recourses
and pollution and contribute	optimally & remain sensitive to avoid environment
in day to day work by	pollution.
optimally using available	6.2 Dispose waste following standard procedure.
resources.	
7. Explain personnel finance,	7.1 Explain personnel finance and entrepreneurship.
7. Explain personnel infance,	7.1 Explain personner infance and entrepreneursing.

entrepreneurship and manage/organize related task in day to day work for personal & societal growth.	7.2 Explain role of Various Schemes and Institutes for self- employment i.e. DIC, SIDA, SISI, NSIC, SIDO, Idea for financing/ non financing support agencies to familiarizes with the Policies /Programmes & procedure & the available scheme.
	7.3 Prepare Project report to become an entrepreneur for submission to financial institutions.
8. Plan and execute the work related to the occupation.	8.1 Use documents, drawings and recognize hazards in the work site.
	8.2 Plan workplace/ assembly location with due consideration to operational stipulation
	8.3 Communicate effectively with others and plan project tasks
	8.4 Execute the task effectively.

SPI	SPECIFIC LEARNING OUTCOME			
LEARNINGOUTCOMES	ASSESSMENT CRITERIA			
9. Set the gas welding plant and join MS sheet in different position. [Different position: - 1F, 2F, 3F, 1G, 2G, 3G.]	 9.1 Plan and select the nozzle size, working pressure, type of flame, filler rod as per requirement. 9.2 Prepare, set and tack the pieces as per drawing. 9.3 Set up the tacked joint in specific position. 9.4 Deposit the weld following proper welding technique and safety aspect. 9.5 Carry out visual inspection to ascertain quality weld joint. 			
10. Set the SMAW machine and perform different type of joints on MS in different position observing standard procedure. [different types of joints- Fillet (T-joint, lap & Corner), Butt (Square & V); different position - 1F, 2F, 3F,4F, 1G, 2G, 3G, 4G]	 10.1 Plan and select the type & size of electrode, welding current. 10.2 Prepare edge as per requirement 10.3 Prepare, set SMAW machine and tack the pieces as per drawing. 10.4 Set up the tacked pieces in specific position. 10.5 Deposit the weld maintaining appropriate arc length, electrode angle, welding speed, weaving technique and safety aspects. 10.6 Clean the welded joint thoroughly. 10.7 Carry out visual inspection for appropriate weld joint & check by gauges. 			
11. Set the oxy- acetylene cutting plant and perform different cutting operations on MS plate. [Different cutting operation – Straight, Bevel, circular]	 11.1 Plan and mark on MS plate surface for straight/bevel/circular cutting. 11.2 Select the nozzle size and working pressure of gases as per requirement. 11.3 Set the marked plate properly on cutting table. 11.4 Set the cutting plant & perform the cutting operation maintaining proper techniques and all safety aspects. 11.5 Clean the cutting burrs and inspect the cut surface for soundness of cutting. 			
12. Perform welding in different types of MS pipe joints by Gas welding (OAW). [Different types of MS pipe joints – Butt,	 12.1 Plan and prepare the development for a specific type of pipe joint. 12.2 Mark and cut the MS pipe as per development. 12.3 Select the size of filler rod, size of nozzle, working pressure etc. 12.4 Set and tack the pieces as per drawing. 			

Elbow, T-joint, angle (45°) joint, flange joint]	12.5 Deposit the weld bead maintaining proper technique and safety aspects.	
	12.6 Inspect the welded joint visually for poor penetration, uniformity of bead and surface defects.

Skill India कौशल भारत-कुशल भारत

	SYLLABUS - WELDER						
	First Year						
Week No.	Reference Learning Outcome	Process code	Professional Skills (Trade Practical) with Indicative hrs.	Professional Knowledge (Trade Theory)			
1	Recognize & comply safe working practices, environment regulation and housekeeping.		 Demonstration of Machinery used in the trade. (6 hrs.) Identification to safety equipment and their use etc. (4 hrs.) Hack sawing, filing square to dimensions. (7 hrs.) Marking out on MS plate and punching. (8 hrs.) 	 Importance of trade Training. General discipline in the Institute Elementary First Aid. Importance of Welding in Industry Safety precautions in Shielded Metal Arc Welding, and Oxy-Acetylene Welding and Cutting. 			
2	 Set the gas welding plant and join MS sheet in different position. [Different position: - 1F, 2F, 3F, 1G, 2G, 3G.] Set the SMAW machine and perform different type of joints on MS in different position observing standard procedure. [different types of joints- Fillet (T-joint, lap & Corner), Butt (Square & V); different position - 1F, 2F, 3F,4F, 1G, 2G, 3G, 4G] 	OAW-01	 Setting of oxy-acetylene welding equipment, Lighting and setting of flame. (2 hrs.) Perform fusion run without filler rod on MS sheet 2mm thick in flat position. (2 hrs.) Setting up of Arc welding machine & accessories and striking an arc. (2 hrs.) Deposit straight line bead on MS plate in flat position. (2 hrs.) 	 Introduction and definition of welding. Arc and Gas Welding Equipments, tools and accessories. Various Welding Processes and its applications. Arc and Gas Welding terms and definitions. 			
3	 Set the gas welding plant and join MS sheet in different position. [Different position: - 1F, 2F, 3F, 	OAW-02	9. Depositing bead with filler rod on M.S. sheet 2 mm thick in flat position. (10 hrs.)	 Different process of metal joining methods: Bolting, riveting, soldering, brazing, seaming etc. Types of welding joints and its 			

	1G, 2G, 3G.]	OAW-03	10. Edge joint on MS sheet 2 mm thick in flat position without filler rod. (15 hrs.)	applications. Edge preparationand fit up for differentthickness.Surface Cleaning
4	• Set the SMAW machine and perform different type of joints on MS in different position observing standard procedure. [different types of joints- Fillet (T-joint, lap & Corner), Butt (Square & V); different position -	SMAW-02	 11. Straight line beads on M.S. plate 10 mm thick in flat position. (10 hrs.) 12. Weaved bead on M. S plate 10mm thick in flat position. (15 hrs.) 	 Basic electricity applicable to arc welding and related electrical terms &definitions. Heat and temperature and its terms related to welding Principle of arc welding. And characteristics of arc.
	1F, 2F, 3F,4F, 1G, 2G, 3G, 4G]			
5	Set the oxy- acetylene cutting plant and perform different cutting operations on MS plate. [Different cutting operation – Straight, Bevel, circular]	OAGC-01 OAGC-02 OAGC-03	13. Setting up of oxyacetylene and make straight cuts (freehand) (2 hrs.) 14. Perform marking and straight line cutting of MS plate 10 mm thick by gas. Accuracy within ±2mm. (4 hrs.) 15. Beveling of MS plates 10 mm thick, cutting regular geometrical shapes and irregular shapes, cutting chamfers by gas cutting. (7 hrs.) 16. Abbreviations:

- Shielded Metal Arc Welding SMAW - Oxy-Acetylene Gas Welding OAW - Oxy-Acetylene Gas Cutting OAGC - Gas Metal Arc Welding GMAW - Gas Tungsten Arc Welding **GTAW** - Plasma Arc Cutting PAC - Resistance Welding RW - Inspection & Testing I&T WT - Wall Thickness.

Note: -

- 1. Some of the sample project works (indicative only) are given at the mid and end of each year.
- 2. Instructor may design their own project and also inputs from local industry may be taken for designing such new project.
- 3. The project should broadly covered maximum skills in the particular trade and must involve some problem solving skill. Emphasis should be on Teamwork: Knowing the power of synergy/ collaboration, Work to be assigned in a group (Group of at least 4 trainees). The group should demonstrate Planning, Execution, Contribution and application of Learning. They need to submit Project report.
- 4. If the instructor feels that for execution of specific project more time is required then he may plan accordingly in appropriate time during the execution of normal trade practical.
- 5. More emphasis to be given on video/real-life pictures during theoretical classes. Some real-life pictures/videos of welded items like boiler drum, ship building, heavy welded structures etc., may be shown to the trainees to give a feel of Industry and their future assignment.

9.1 WORKSHOP CALCULATION SCIENCE & ENGINEERING DRAWING

	Duration:	One Year
S No.	Workshop Calculation and Science	Engineering Drawing
1.	<u>Unit</u> : Systems of unit- FPS, CGS, MKS/SI unit, unit of length, Mass and time, Conversion of units	Engineering Drawing: Introduction and its importance - Relationship to other technical drawing types - Conventions - Viewing of engineering drawing sheets Method of Folding of printed Drawing Sheet as per BIS SP:46-2003
2.	Fractions: Fractions, Decimal fraction, L.C.M., H.C.F., Multiplication and Division of Fractions and Decimals, conversion of Fraction to Decimal and vice versa. Simple problems using Scientific Calculator.	Drawing Instruments: their Standard and uses - Drawing board, T-Square, Drafter (Drafting M/c), Set Squares, Protractor, Drawing Instrument Box (Compass, Dividers, Scale, Diagonal Scales etc.), Pencils of different Grades, Drawing pins / Clips.
3.	Ratio & Proportion : Simple calculation on related problems.	Lines: - Definition, types and applications in Drawing as per BIS SP:46-2003 - Classification of lines (Hidden, centre, construction, Extension, Dimension, Section) - Drawing lines of given length (Straight, curved) - Drawing of parallel lines, perpendicular line - Methods of Division of line segment
4.	Percentage: Introduction, Simple calculation. Changing percentage to fraction and decimal & vice-versa.	Free hand drawing of - Lines, polygons, ellipse, etc. - geometrical figures and blocks with dimension - Transferring measurement from the given object to the free hand sketches.

		1
5.	Material Science: properties - Physical & Mechanical, Types — Ferrous & Non-Ferrous, difference between Ferrous and Non-Ferrous metals, introduction of Iron, Cast Iron, Wrought Iron, Steel, difference between Iron and Steel, Alloy steel,	Lettering and Numbering as per BIS SP46- 2003: - Single Stroke, Double Stroke, inclined, Upper case and Lower case.
	carbon steel, stainless steel, Non- Ferrous metals, Non-Ferrous Alloys.	
6.	Mass, Weight and Density: Mass, Unit of Mass, Weight, difference between mass and weight. Density, unit of density. Relation between mass, weight & density. Simple problems related to mass,	Drawing of Geometrical Figures: Definition, nomenclature and practice of : - - Angle: Measurement and its types, method of bisecting. - Triangle -different types - Rectangle, Square, Rhombus,
	weight, and density.	Parallelogram Circle and its elements.
7.	Work, Power and Energy: work, unit of work, power, unit of power, Horse power of engines, mechanical efficiency, energy, use of energy, potential and kinetic energy, examples of potential energy and kinetic energy.	Sizes and Layout of Drawing Sheets - Basic principle of Sheet Size - Designation of sizes - Selection of sizes - Title Block, its position and content - Borders and Frames (Orientation marks and graduations) - Grid Reference - Item Reference on Drawing Sheet (Item List)
8.	कौशल भारत	Method of presentation of Engineering Drawing - Pictorial View - Orthographic View - Isometric view
9.		Symbolic Representation used in the related trade (as per BIS SP:46-2003) of: - Fastener (Rivets, Bolts and Nuts) - Bars and profile sections - Weld, brazed and soldered joints. - Electrical and electronics element - Piping joints and fittings
10.	Basic Algebra: Addition, Subtraction, Multiplication, Division, Algebraic formula, Linear equations (with two variables).	Dimensioning practice: - Position of dimensioning (unidirectional, aligned, as per BIS SP:46-2003) - Types of arrowhead
	· · · · · · · · · · · · · · · · · · ·	· · · · · · · · · · · · · · · · · · ·

11.	Mensuration :	 Leader Line with text Symbols preceding the value of dimension and dimensional tolerance. Drawing of Solid figures (Cube, Cuboids,
	Area and perimeter of square, rectangle, parallelogram, triangle, circle, semi circle,	Cone, Prism, Pyramid, Frustum of Cone and Pyramid.) with dimensions.
	Volume of solids – cube, cuboid, cylinder and Sphere.	
	Surface area of solids – cube, cuboid, cylinder and Sphere.	
12.	Trigonometry: Trigonometrical ratios, measurement of angles. Trigonometric tables	Free hand Drawing of Solid figures (Prism, Pyramid, Frustum of Cone and Pyramid.) with dimensions.
13.	Elasticity: Elastic & Plastic material. Stress & strain and their units. Young's modules. Ultimate stress and breaking stress.	Free Hand sketch of hand tools and measuring tools used in respective trades.
14.	Heat & Temperature: Heat and temperature, their units, difference between heat and temperature, boiling point, melting point, Scale of temperature, relation between different scale of temperature. Thermometer, pyrometer. Transmission of heat, conduction, convection, radiation.	 Projections: Concept of axes plane and quadrant. Orthographic projections Method of first angle and third angle projections (definition and difference) Symbol of First angle and 3rd angle projection as per IS specification.
15.	Basic Electricity: Introduction, use of electricity, how electricity is produced, Types of current_ AC, DC, their comparison, voltage, resistance, their units. Conductor, insulator, Types of connections — series, parallel, electric power, Horse power, energy, unit of electrical energy. - Electrical insulating materials. - Basic concept of earthing.	Drawing of Orthographic projection in 3 rd angle.

16.	- Area of irregular surfaces.- Application related to shop problems.	Free hand Drawing of simple fastener (Rivet, Bolts, Nuts & Screw)
17.	- Material weight and cost problems related to trade.	Free hand sketching of simple objects related to trade.
18.	- Temperature measuring instruments. Specific heats of solids & liquids.	- Riveted joints-Butt & Lap (Drawing one for each type).
19.	- Thermal Conductivity, Heat loss and heat gain.	- Reading of drawing. Simple exercises related to missing lines, dimensions. How to make queries.
20.	- Heat treatment and advantages.	Simple exercises relating missing symbols.Missing views
21.		- Concept of preparation of assembly drawing and detailing. Preparation of simple assemblies & their details of trade related job/exercises with the dimensions from the given sample or models.
22.		Reading of fabricated engineering drawing

ARREST DES

9.2 EMPLOYABILITY SKILLS

	Duration: 110 Hrs.	
1. English Literacy		Duration: 20 Hrs. Marks: 09
Pronunciation	Accentuation (mode of pronunciation) on simple of word and speech)	words, Diction (use
Functional Grammar	Transformation of sentences, Voice change, Char	nge of tense, Spellings.
Reading	Reading and understanding simple sentences aborenvironment	out self, work and
Writing	Construction of simple sentences Writing simple English	
Speaking / Spoken English	Speaking with preparation on self, on family, on know, picture reading gain confidence through roon current happening job description, asking aboactions. Cardinal (fundamental) numbers ordinal messages, passing messages on and filling in mesintroductions office hospitality, Resumes or curriletters of application reference to previous comme	ole-playing and discussions out someone's job habitual numbers. Taking ssage forms Greeting and culum vita essential parts,
2. I.T. Literacy		Duration: 20 Hrs. Marks: 09
Basics of Computer	Introduction, Computer and its applications, I Switching on-Starting and shutting down of comp	Hardware and peripherals,
Computer Operating System	Basics of Operating System, WINDOWS, The user Create, Copy, Move and delete Files and Folders, like pen drive, CD, DVD etc, Use of Common appl	Use of External memory
Word processing and Worksheet	Basic operating of Word Processing, Creating, op Documents, use of shortcuts, Creating and Editin Text, Insertion & creation of Tables. Printing docuBasics of Excel worksheet, understanding basic coworksheets, understanding sample worksheets, understanding sample worksheets, understanding sample worksheets.	g of Text, Formatting the ument. ommands, creating simple
Computer Networking and Internet	Basic of computer Networks (using real life exam Area Network (LAN), Wide Area Network (WAN), Internet (Network of Networks), Meaning of World Wide Web (WWW), Web Brov and Search Engines. Accessing the Internet using	Internet, Concept of vser, Web Site, Web page

	Downloading and Printing Web Pages, Opening a email. Social media sites and its implication. Information Security and antivirus tools, Do's ar Security, Awareness of IT - ACT, types of cyber of	nd Don'ts in Information
3. Communication Skills		Duration: 15 Hrs. Marks: 07
Introduction to Communication Skills	Communication and its importance Principles of Effective communication Types of communication - verbal, non verbal, wri phone. Non verbal communication -characteristics, comp Body language Barriers to communication and dealing with barr Handling nervousness/ discomfort.	ponents-Para-language
Listening Skills	Listening-hearing and listening, effective listening listening guidelines for effective listening. Triple- A Listening - Attitude, Attention & Adjustr Active Listening Skills.	
Motivational Training	Characteristics Essential to Achieving Success. The Power of Positive Attitude. Self awareness Importance of Commitment Ethics and Values Ways to Motivate Oneself Personal Goal setting and Employability Planning	a
Facing Interviews	Manners, Etiquettes, Dress code for an interview Do's & Don'ts for an interview.	1रत
Behavioral Skills	Problem Solving Confidence Building Attitude	
4. Entrepreneurship Skills	5	Duration: 15 Hrs. Marks: 06
Concept of Entrepreneurship	Entrepreneur - Entrepreneurship - Enterprises Entrepreneurship vs. management, Entreprene Performance & Record, Role & Function of entre enterprise & relation to the economy, Source of Entrepreneurial opportunities, The process of set	eurial motivation. preneurs in relation to the business ideas,
Project Preparation &	Qualities of a good Entrepreneur, SWOT and Risk	Analysis. Concept &

	-	
Marketing analysis	application of PLC, Sales & distribution Manager Small Scale & Large Scale Business, Market Surve Publicity and advertisement, Marketing Mix.	
Institutions Support	Preparation of Project. Role of Various Schemes employment i.e. DIC, SIDA, SISI, NSIC, SIDO, Idea financing support agencies to familiarizes with the procedure & the available scheme.	for financing/ non
Investment Procurement	Project formation, Feasibility, Legal formalities in Costing, Investment procedure - Loan procurem	
5. Productivity		Duration: 10 Hrs. Marks: 05
Benefits	Personal / Workman - Incentive, Production link Improvement in living standard.	ed Bonus,
Affecting Factors	Skills, Working Aids, Automation, Environment, improves or slows down.	Motivation - How
Comparison with developed countries	Comparative productivity in developed count and Australia) in selected industries e.g. Manufa Construction etc. Living standards of those coun	cturing, Steel, Mining,
Personal Finance Management	Banking processes, Handling ATM, KYC registrati Personal risk and Insurance.	ion, safe cash handling,
6. Occupational Safety, H	lealth and Environment Education	Duration: 15 Hrs. Marks: 06
Safety & Health	Introduction to Occupational Safety and Health health at workplace.	importance of safety and
Occupational Hazards	Basic Hazards, Chemical Hazards, Vibroaco Hazards, Electrical Hazards, Thermal Haza Occupational hygienic, Occupational Diseases/ E	ustic Hazards, Mechanical rds. Occupational health,
Accident & safety	Basic principles for protective equipment. Accident Prevention techniques - control of acci	dents and safety measures.
First Aid	Care of injured & Sick at the workplaces, First-Ai person.	id & Transportation of sick
Basic Provisions	Idea of basic provision legislation of India. safety, health, welfare under legislative of India.	
Ecosystem	Introduction to Environment. Relationship betw	an Casiatu and

Pollution	Pollution and pollutants including liquid, gaseo	us, solid and hazardous
Tollation	waste.	as, sona ana nazaraoas
Energy Conservation	Conservation of Energy, re-use and recycle.	
Global warming	Global warming, climate change and Ozone lay	er depletion.
Ground Water	Hydrological cycle, ground and surface water, C of water.	Conservation and Harvesting
Environment	Right attitude towards environment, Maintena environment.	nce of in -house
7. Labour Welfare Legisl	ation	Duration: 05 Hrs. Marks: 03
Welfare Acts	Benefits guaranteed under various acts- Factor Employees State Insurance Act (ESI), Payment \ Provident Fund Act, The Workmen's compensa	Wages Act, Employees
Welfare Acts 8. Quality Tools	Employees State Insurance Act (ESI), Payment \	Wages Act, Employees
	Employees State Insurance Act (ESI), Payment \	Wages Act, Employees tion Act. Duration: 10 Hrs.
8. Quality Tools Quality Consciousness	Employees State Insurance Act (ESI), Payment \ Provident Fund Act, The Workmen's compensa	Nages Act, Employees tion Act. Duration: 10 Hrs. Marks: 05 bjectives of quality Circle, ation, Operation of Quality
8. Quality Tools Quality Consciousness Quality Circles Quality Management	Employees State Insurance Act (ESI), Payment No Provident Fund Act, The Workmen's compensation Meaning of quality, Quality characteristic. Definition, Advantage of small group activity, or Roles and function of Quality Circles in Organization Circle. Approaches to starting Quality Circles, St	Nages Act, Employees tion Act. Duration: 10 Hrs. Marks: 05 bjectives of quality Circle, ation, Operation of Quality teps for continuation Quality
8. Quality Tools	Employees State Insurance Act (ESI), Payment No Provident Fund Act, The Workmen's compensation of Quality, Quality characteristic. Definition, Advantage of small group activity, or Roles and function of Quality Circles in Organization of Circle. Approaches to starting Quality Circles, St. Circles. Idea of ISO 9000 and BIS systems and its importance in the provided systems.	Nages Act, Employees tion Act. Duration: 10 Hrs. Marks: 05 bjectives of quality Circle, ation, Operation of Quality teps for continuation Quality tance in maintaining

LIST OF TOOLS AND EQUIPMENT								
WELDER (For batch of 20 Candidates)								
S No.	Name of the Tools & Equipment	Specification	Quantity					
A. TRAINEES TOOL KIT (For each additional unit trainees tool kit Sl. 1-15 is required								
addit	ionally)							
1.	Welding helmet fiber		*20 Nos.					
2.	Welding hand shield fiber		*20 Nos.					
3.	Chipping hammer	with metal handle 250 Grams	*20 Nos.					
4.	Chisel cold	flat 19 mm x 150 mm	*20 Nos.					
5.	Centre punch	9 mm x 127 mm	*20 Nos.					
6.	Dividers	200 mm	*20 Nos.					
7.	Stainless steel rule	300mm	*20 Nos.					
8.	Scriber	150 mm double point	*20 Nos.					
9.	Flat Tongs	350mm long	*20 Nos.					
10.	Hack saw frame	fixed 300 mm	*20 Nos.					
11.	File half round	bastard 300 mm	*20 Nos.					
12.	File flat	350 mm bastard	*20 Nos.					
13.	Hammer ball pane	1 kg with handle	*20 Nos.					
14.	Tip Cleaner	3	*20 Nos.					
15.	Try square	6"	*20 Nos.					
	STRUMENTS AND GENERAL SHOP OUTFI	T - For 2 (1+1) units no additional

	S & EQUIPMENT							
16.	Spindle key		4 Nos.					
17.	Screw Driver	300mm blade and 250 mm blade	1 each					
18.	Number punch	6 mm	2 set					
19.	Letter punch	6 mm	2 set					
20.	Magnifying glass	100 mm dia.	2 Nos.					
21.	Universal Weld measuring gauge		2 Nos.					
22.	Earth clamp	600A	6 Nos.					
23.	Spanner D.E.	6 mm to 32mm	2 sets					
24.	C-Clamps	10 cm and 15 cm	2 each					
25.	Hammer sledge	double faced 4 kg	1 No.					
26.	S.S tape	5 meters flexible in case	1 No.					
27.	Electrode holder	600 amps	6 Nos.					
28.	H.P. Welding torch	with 5 nozzles	2 sets					
29.	Oxygen Gas Pressure	regulator double stage	2 Nos.					

30.	Acetylene Gas Pressure	regulator double stage	2 Nos.		
31.	CO ₂ Gas pressure regulator	with flow meter	2 set		
32.	Argon Gas pressure regulator	with flow meter	2 set		
33.	Metal rack	182 cm x 152 cm x 45 cm	1 No.		
34.	First Aid box		1 No.		
35.	Steel lockers	with 8 Pigeon holes	2 Nos.		
36.	Steel almirah / cupboard		2 Nos.		
37.	Black board and easel with stand		1 No.		
38.	Flash back arrester (torch mounted)		4 pairs		
	Flash back arrester (cylinder		-		
39.	mounted)		4 pairs		
GENE	ERAL SHOP OUTFIT				
40.	Welding Transformer	with all accessories (400A, OCV 60–100 V, 60% duty cycle)	1 set		
41.	Welding Transformer (or) Inverter based welding machine	with all accessories (300A, OCV 60 – 100 V, 60% duty cycle)	1 set		
42.	D.C Arc welding rectifiers set with all accessories	(400 A. OCV 60 – 100 V, 60% duty cycle)	1 sets		
43.	GMAW welding machine	400A capacity with air cooled torch, Regulator, Gas preheater, Gas hose and Standard accessories	1 set		
44.	AC/DC GTAW welding machine	with water cooled torch 300 A, Argon regulator, Gas hose, water circulating system and standard accessories.	1 set		
45.	Air Plasma cutting equipment	with all accessories, capacity to cut 12 mm clear cut	1 set		
46.	Air compressor suitable for above air plasma cutting system.	3	1 No.		
47.	Auto Darkening Welding Helmet		2 Nos.		
48.	Spot welding machine	15 KVA with all accessories	1 set		
49.	Portable gas cutting machine	capable of cutting Straight & Circular with all accessories	1 set		
50.	Pedestal grinder fitted with coarse and medium grain size grinding wheels	300 mm dia.	1 No.		
51.	Bench grinder fitted with fine grain size silicon carbide green grinding wheel	150 mm dia.	1 No.		
	Wilcei
